

**NEW
PROFESSIONAL MODEL**

**Prizelawn® CBR IV & CBR IVSS
COMMERCIAL BROADCAST**

Prizelawn® CBR IV & CBR IVSS COMMERCIAL BROADCAST SPREADER

FEATURES

- **HOPPER CAPACITY**– 1.3 cubic foot.
- **HOPPER MATERIAL**– Calcium filled polypropylene for superior strength and flexibility with cold impact resistance.
- **GEARS**– Limited life time warranty, 5:1 ratio is set for optimum impeller speed at a normal walking speed of 2 1/2 MPH.
- **GEAR COVER**– Heavy duty plastic cover with quick release clamps allows easier servicing of the gears.
- **AXLE & WHEEL BEARINGS**– 3/4" diameter. #300 SS Axle, Nylon 6/6, wheel bearings with excellent wear and load carrying performance.
- **WHEEL & TIRE**–13" diameter Turf Saver II tire on a rust proof composite rim.
- **FRAME**– 1" diameter tubing, welded construction with built in lift handle.
- **LEG/BRACE**– 7/8" diameter.
- **UPPER HANDLE**– 7/8" diameter, grip area contoured to reduce operator fatigue.
- **RATE CONTROL**– Top mounted for ease of rate setting and reading.
- **ON/OFF**– Lever operated, spring loaded.
- **METAL FINISH**– 5 stage phosphate pre-treatment with epoxy powder coating on the cold rolled steel model. Withstands 1,000 hour salt spray testing.
- **STAINLESS STEEL COMPONENTS**– #300 series.
- **PATTERN CONTROL**– Allows operator to adjust the spread pattern without changing the application rate.
- **HOPPER COVER**– See through cover prevents accidental spillage of material. Keeps fertilizer dry.
- **HOPPER PORT**– Single hole. Reduces spread pattern deviations.
- **FASTENERS**– #18-8 Stainless steel.
- **SPREADER WEIGHT**– 29 lbs.
- **STAINLESS STEEL MODEL**– Frame, Leg/Brace, Control Tube and Upper Handle are made from #300 stainless Steel.
- **OPTIONAL SIDE DEFLECTOR**– Stainless Steel, foot operated allows operator to cut-off the spread pattern on the right side along sidewalks, driveways, etc
